GAME BOY IN YOUR POCKET

The most portable portable video game system in the world turns out to be even more portable now that Nintendo has introduced Game Boy Pocket. This sleek new Game Boy measures about 30% smaller in volume and half the weight than the classic Game Boy, but it retains the same size screen and it works with all Game Boy Game Paks. In addition to the slim lines, Game Boy Pocket has a new black and white LCD screen with sharper resolution and a matte silver finish. It is powered by two AAA batteries, which will last for about 10 hours of game play. And what can you play? To date, there are over 430 Game Boy titles, and more hits are on the way, including several listed here. Even with 48 million

Game Boy units already sold, the system continues to sell more than a million units each year in North America alone. Available this September for \$59.95, Game Boy Pocket should keep the tradition alive.

IN THE POCKET

If you wanted to try out any of the new Game Boy titles at E3, you got the chance to do so on the new Game Boy Pocket system. The biggest titles came from Nintendo and included Donkey Kong Land 2: Diddy's Kong Quest, which is the Game Boy version of DKC 2 for the Super NES. Rare Co. Ltd. used the same ACM techniques to create the 3-D look of the

graphics. Digger, from Nintendo, features puzzle room play similar to that found in The Adventures of Lolo. Tetris Attack for Game Boy also debuted. T•HQ continues to sub-license hot Game Boy titles from companies such as EA Sports and Disney Interactive. Coming up from EA Sports are Madden '97 and FIFA '97. From Disney Interactive, look for Disney's Pinocchio. T•HQ will also release a dual Pak featuring arcade classics, Battlezone and Super Breakout.

VIRTUAL BOY

The biggest news for Virtual Boy was a lower manufacturer's suggested price of \$99.95 and software prices ranging from \$29.95 to \$39.95. Nintendo also showed off two new Virtual Boy games for the first time in North America: Dragon Hopper and Bound High. Both games have involving play and use the unique 3-D capabilities of the Virtual Boy 32-bit video game system.

Dorin the Dragon Prince lived a happy life in the magical Kingdom of Celestia until the corrupt prime minister jailed his family. Pursued by soldiers, Dorin fled his home. As he ran away, he tripped and fell into a mysterious hole, landing in the Land of Faeron. Help him find his way back to the surface and save Celestia in Nintendo's **Dragon Hopper**, a battery-backed, 3-D adventure for Virtual Boy.

VIRTUAL VERTIGO

Hop up to a new perspective in Virtual Boy adventure games. Prince Dorin, a dragon with moves like a kangaroo, must scale seven airy, terraced worlds to return to his kingdom and rescue his family. Despite its challenging leaps and mazes, **Dragon Hopper** isn't a difficult game to finish. Since the game doesn't force players to build levels or spend hours trying to defeat a frustrating guardian, a few hard-core gamers might even finish their quest in one weekend. But the game has so many random spells and hidden areas that players won't be able to find all of them in a single game. It's a sure bet that many players will return to unite Dorin with his dragon family over and over again.

Dragon Hopper is a 3-D adventure game played on a multitude of maze levels. In the sequence of photos on the left, Dorin hops down a series of terraces to reach a jump platform on the ground floor.

JUMP UP AND GET DOWN

Even on a bad day, Dorin the Dragon can catch more air than an entire team of NBA all-stars. This is an important talent since all seven worlds in Dragon Hopper are crammed with staggered floors, tiny terraces and minuscule platforms. Jumping is the only way to get around. Dorin won't get hurt if

he falls to the ground unless there isn't any to land on. You can't lose sight of your dragon if he

trots beneath a platform: A user-friendly feature turns all of the upper floors transparent whenever Dorin walks beneath them, so you always have a view of the action. As you jump higher and higher, the floors far below gradually fade from view. But don't set your sights too high. Many hidden treasures can be found on the lowest floors of the mazes.

The large blocks in the foreground are actually stairs leading to a higher floor. Use Dorin's jumping skills to hop up blocks or stomp through floors. Nearly every maze has hidden coins or rooms.

Dragon Hopper has seven worlds filled with platform mazes. The leaps become more difficult as Dorin climbs up out of the Great Tunnel, crosses the plains of Ice and enters the Tower of Infinity.

If Dorin explores any areas beneath a higher platform, the overhead floor turns transparent. This user-friendly feature helps you identify and confront any enemies lurking nearby in the shadows.

Each world has a hidden warp tile that teleports you to a magic shop. Here you can spend your hard-earned Star Coins on new spells or pay to play for the chance to win more money in a Bonus Room game.

Cutter, the guardian of the Earth Level, is determined to take a slice of your life. Unlike most adventure games, Dragon Hopper lets players use a variety of attacks and tactics to dispatch major enemies.

THE FAIRY SPIRITS NEED YOUR HELP

Each time Dorin rescues a Fairy Spirit, he receives an elemental power. When you free the Earth Spirit from his prison in the Great Tunnel, he gives you the power to create a large earthquake that destroys enemies and crumbles weak floors. The Water Spirit is locked away in a rusty cage in the Earth Level. She can teach you the magic

of the Ice Dragon. Ice Dragons can freeze water with a frosty blast, allowing you to walk across the ice.

When you rescue Fairy Spirits, they give you clues and special dragon powers. The Earth Spirit gives you the power of the Earth Dragon while the Water Spirit shares the Ice Dragon's magical ability.

Water "I am the Water Spirit. Thank you for helping me."

Earth "I am the Earth Spirit. I was imprisoned by a mysterious person."

While the Spirits give you magical powers, they know little about the powerful being that kidnapped them. The identity of the kidnapper will be revealed as you meet other creatures during your quest.

POWER RANGERS ZEO BATTLE RACERS

The Power Rangers take on a new role in Bandai's Power Race Zeo. Instead of kicking, punching, and morphing into awesome fighting forms, the Rangers (and select competitors such as cog and King Mondo) mount their motorcycles, jet cycles, hover craft, dune buggies and Quadra Fighters, then do battle on 16 courses. This mix of racing and demolition derby action can take place against the computer or a friend. Playing modes include a Time Trial, Two-player Mode, CPU Vs. Mode, Race Mode and Point Race Mode, which entails collecting points for items that are scattered over the track. The Blaster

Master Mode may be the most fun of all. You and your buddy have unlimited blaster fire power and you have 99 seconds to blow each other up. In most of the other races, each speeder begins the race with five blaster shots, but you can also slam and ram them off the track. In fact, the final mode of play is the Super Chase Mode, which requires you to slam your opponent off the track within 99 seconds since you don't have blasters. Bandai has really packed this Power Rangers Racer with great options. If you're a Power Ranger fan or not, you'll find it hard to climb off your bike. Bandai should release Power Rangers Zeo in September or October.

G-ZERO

It's too bad Nintendo didn't have this 3-D F-Zero play-alike ready for Virtual Boy last year. This racer rocks in red and black. You pilot one of four planes through tunnel courses that twist, turn, dip and rise. Each plane has different control and speed attributes, so selecting the right racer for the right course gives you an advantage. The planes look a bit like space fighters and the sounds they make as they scream through the

underground labyrinths also reminded this Pak Pilot of the high-speed run down the trench of the Death Star. The only difference is that you are in control and the course is all over the place. As in F-Zero for the Super NES, cars refuel and heal up when they pass over power strips. If there's ever been a reason to pick up a Virtual Boy, you can see it in this month's coverage of Dragon Hopper and G-Zero, and next month's look at Bound High. A growing library of fun games makes a huge difference.

THE BROTHERS BEAR

Help comes in many forms in the world of Donkey Kong Country 3: Dixie's Double Trouble. One of the best forms of help may be found embodied in the 13 Brothers Bear who live in cabins situated throughout the world maps and sub-maps. Each burly bro requires your special attention. For instance, one bear, named Baffle, loves a bamboozling puzzle or a very sad bear named Blue needs cheering up. Rare plans to include lots of diversions in the third DKC game, making the play even more varied and rich than in DKC 2. We'll have more as this game reaches completion.

SCATTERED BITS

• T&E Soft, a long-time publisher of Nintendo games in Japan, has announced that it will be creating a Nintendo 64 action puzzle game called Kwu-ompa. What does Kwu-ompa mean? We asked some native Japanese speakers who laughed and shrugged. Apparently, it doesn't mean anything and we haven't received a detailed description of the game yet. If you've seen a Kwu-ompa in your town, let us know.

• Halfway around the world from Japan, Ocean and Infogrames, two of the largest game companies in Europe, have agreed to merge, which would make the new company one of the largest game publishers in the world. Ocean's U.S. subsidiary is currently developing Mission: Impossible for the N64. Infogrames, most recent titles starred the Smurf characters and were released by I.Motion. What does this union portend for the future? In the short term, Ocean reports an infusion of new development equipment and talent to work on MI. In the future, perhaps we'll see undercover Smurfs cleverly disguised as blue M&Ms.

• Bandai America is looking in two directions for new Super NES games. They are considering releasing classic Super Famicom hits such as Dragon Ball Z—sort of an action RPG title—and starting up a new game division in the U.S. that would release new titles, probably with the use of out-of-house developers. Like several other companies, Bandai sees potential in the still vast Super NES market in North America.
